"Oh, where do I begin with the gifted, talented and lovely Alicia Isaacs Howes?? Every time I've connected with Alicia, I always receive some AMAZING golden nugget or insight about my life I could not see on my own. I am a pretty awake and aware woman. For this reason, I require someone with fairly advanced intuitive abilities to support me. Alicia takes the cake on so many levels in that department! I HIGHLY recommend Alicia as the ONLY intuitive you'll ever need to work with! "

I have never been so humbled by any experience in my life as by my over-the-phone reading with Alicia. Once a non-believer in psychic guidance myself, my defenses were cast down the instant I heard Alicia's voice on my voice mail returning my call for help. I knew I could trust her & I was SO right. I was floored by Alicia's sweet, nurturing, and uncanny ability to unveil my unconscious past with her immense talent. Thanks to her, I can move forward from self-doubt and LIVE in self-awareness.

Call right now--I mean it! I had a reading with Alicia yesterday and feel anyone and everyone who has any questions about their Soul Story or wondering how to get back on track in their Life can sincerely benefit from her warmth, integrity, insight, healing and compassion. From the moment we first spoke, I was washed over with a sense of calm & peace, and knew Alicia would discover what I needed to hear to heal and regain the love and joy in my own life. Just call--you'll be thrilled!!!

Alicia was extremely accurate in her reading of me. She mentioned many things regarding my rearing as a child that were right on target without ever asking leading questions. She is very lovely and kind and it was about the most positive reading I've ever had with a psychic. I came away with a much better feeling about my deceased father with whom I had a difficult relationship with while growing up. For that I am most grateful and finally at peace with. Thank you Alicia.

Hmmmm ... what do I recommend about Alicia? Well, for starters, everything. Seriously! This woman is one of the most grounded, intuitive, gentle yet powerful people you could ever hope to work with. Her ability to tune into not only what a situation is really about but what is actually driving it on a subconscious level beneath the scenes is amazing. She will always, always help you find your way to the bigger picture and the deeper lesson in the current chapter of your life. She expertly guides you see both the root of the issue at hand as well as the quickest, most heart centered way to move forward. She can deliver messages that are hard to hear in a way that is easy to absorb and her ability to shift and clear energy right on the spot makes every session with her as empowering as it is insightful. If you are considering working with Alicia, my advice is not to wait another minute to call her. She is truly a charm on the bracelet of life."

- Merry Carole Powers, Founder of Powers Emporium, www.brandingpowers.com

"I just had my second reading with Alicia. Like my first time she amazed me. She helped identify issues right on and explained ways I could get over them. Her voice and tone indicates how much she cares for those who call her. Thank you Alicia."

"I was really impressed with Alicia and would highly recommend her-- and already have to my mother. She spotted my issues right away and helped me find ways to heal both over the phone and in daily practices. She is kind and smart and clearly very intuitive!"

"This is my 3rd session with Alicia in the last 8 months. 3 different subjects: sense of self-worth, soul purpose, and relationships. Each time - I experienced a continuous and progressive energy shift towards greater self awareness and personal evolution. Once she establishes the sacred space and she 'taps' into your personal auric energy - it is experience like no other! Highly intuitive and mindfully gifted. Genuine and authentic. She is the one! There is no other like her!"

"Alicia is a gifted intuitive & Akashic Record reader. She validated & answered questions about concerns I had, before I even posed the questions! She addressed past life occurrences w/ such clarity, that it shed an immense amount of light on, & brought awareness & understanding to present circumstances. It was a succession of crystal clear AHA! moments! Alicia works from a very kind, nurturing & gentle place and when working with her, you feel a vibratory lift. I highly recommend her!"

- Sarah Cornett

"I found my reading to be reassuring, fascinating, and empowering. Alicia has a true gift and the ability to share it in such an inclusive, straightforward way which feels relevant to daily life. As much as what she is doing is 'mystical', Alicia is simply tuned into another sense which most of us never use, and her clarity is amazing! Everything she shares she shares with love and when the reading was over I felt ten feet tall! I am going to give my mother the gift of an Akashic Reading and can't wait for her to discover how special it is."

"I participated in Alicia's Joy of Money call and, subsequently, in her "Heal Your Money Story" class, and it revolutionized me in totally unforeseen ways. In one 30-minute "Joy of Money" phone call, Alicia shined a light on the fact that a.) My relationship with money was about so much more than money, and that b.) It needed to change in order to reach my fullest expression of self. I discovered I'd been polluting my consciousness with thoughts of inadequacy, so-called humility, self-deprecation and fear. After 32 years of having certain ideas about myself and the world, one energy activation and the three-part class with Alicia snapped me into the reality that I can be, do and attract anything in the universe.

Since the class:

- I've gotten in touch with how I spend money and paid new attention to aligning my spending with greater family goals; I've developed a more hands-on relationship with money by setting up a family email address for bills; and I've assumed some of the bill paying. I've also requested my husband and I draft a family budget to encourage thoughtful spending of our money, an exercise I previously would've avoided.
- I've attracted regular, well paying and highly satisfying freelance work with a new company.
- In my other freelance job, the floodgates have been opened for me to consciously help others through the work I do.
- I've stopped making self-deprecating comments in casual conversation with others.

(This is huge for me.)

- I have a starkly new relationship with food. Whereas I used to employ unhealthy foods as a resource for comfort and for suppressing complex emotions, after wrapping up the class with Alicia, I embarked on a daunting detox, from which I emerged radiantly revived and, for the first time ever, in tune with what my body needs and wants me to eat. Moreover, not only am I attuned to what my body wants or

Your Soul Story

doesn't want, but I have the power to act accordingly. The best part of the story is that I'm going on five months of effortless healthy eating.

- My physical form has changed significantly in the months since the class. I'm leaner, stronger, lighter and more balanced, inside and out. What's more, a part of my body I always thought was hopeless is changing dramatically in my favor.
- I received a couple long-forgotten checks in the mail.
- Friends have invited us to visit, with free accommodations, in two long-desired vacation destinations.
- I received a free plane ticket from a most unexpected benefactor.
- My friend offered to keep my kids overnight so my husband and I could get away without paying the cost of a babysitter.
- I'm experiencing a deepening connection with my intuition, and finding amazing new gifts within that connection.

I'd recommend Alicia's class to anyone looking for mind-blowingly positive change not only in their relationship with money, but with themselves and with the universe. "

"Make the personal commitment to abandon your negative money story before you start the "Joy of Money" seminar with Alicia.

Finding "joy" in money was really tough for me. Scarcity driven by fear left me paralyzed when faced with any financial decision. I used fear to stop a needed home renovation, take a much needed vacation, plan for my retirement, or even buy new clothes. The financial 'what ifs' kept me from getting a good night's sleep. I felt financially burdened and trapped.

I had worked with Alicia previously on personal issues related to transition - transition from the emotional depths of being unworthy; and, transition from grief to emotional wholeness. When, she announced her seminar on the "Joy of Money" - I saw this an opportunity to release my negative views and fears of money and replace these emotions with comfort, understanding, acceptance and gratitude. With each weekly "Joy of Money" session, I shed layers of negative falsehoods that complicated my

Your Soul Story

personal money story and opened myself to the energies of financial possibility, opportunity, and excitement. I developed a healthy respect for money and now see money as my energetic partner, my tool to financial success. Alicia helped me see Money through clearer lenses. As a result, I have a sense of peace and comfort that I've never had, nor imagined was possible.

Alicia is the perfect Guide to lead you to your own personal self-discovery and healing. For me, removing fear from my money story has driven scarcity from my life. Come prepared to learn, be committed to work, and leave amazed at your own personal healing. The results are wonderful!"

Dear Alicia,

I just want to thank you for the invitation to join in on "*The Joy of Money*" call you had last week. I must say I was skeptical as to how this call could help me, but so glad that I did took the time. I received messages that felt were just for me, so many times I could relate to what was blocking me from receiving the "*joy*" of money.

I want to share with you how immediate my shift came. We have a motorhome that we traveled for 3 years across the U.S., when we came back home we had it in storage for the past year. We became so busy with day to day activities moving back home, gardening, and work that we lost our "*joy*" of traveling with our RV. We thought about selling it but then a part of us did not want to let go of the "*joy*" we received in using it.

After your call, I knew what I had to do to regain the "*joy*".

We found a beautiful RV lake resort, invested in an annual site to regain the "*joy*" we had when we traveled in our home away from home. While we were there the resort manager even asked us if we would like to work part time a day or two, imagine that! So to sum it up, the shift came immediately for me as the information gave me insight to release my fear and doubt regarding this particular issue in

Your Soul Story

our lives. If things go well we may work a day or two and this would be an even trade...."oh the Joy of Money" if we just allow ourselves to shift!

As of yesterday we now have a "vacation home" in a lovely resort with many activities that we can share with family and friends. As we met our neighbors, explored the campground and all the amenities we know we made the right choice. We both recognize that fear and doubt were blocking us from receiving the joy that we "*deserve*" in life.

Thank you Alicia, and I look forward to your next four sessions....yes, I signed up right after the call!

"Before consulting with Alicia, I was stuck in my money story...I believed that I was a stay-at-home mom who would never be able to get back into the work force because my skills were too rusty. I believed that no one would be interested in hiring me. After taking the course, I have been offered a part-time job that will work well for my family's schedule, but I also cleared many other blocks that were preventing me from being fully happy. Alicia helped me to see that the universe really is an abundant place and that everything I need is there the taking. Abundance began to flow into my life in many more ways than just in financial aspects. I stopped feeling so overwhelmed about everything and I began to simply allow good things to flow into my life!"

"I have been working with Alicia for several years now and I have come to find this work essential and invaluable. One of the areas of my life that I have always wanted to heal has been my relationship with money. Through the process of The Joy of Money I am at greater peace.

As a spiritual seeker, cultural creative, and woman I have often found the subject of money uncomfortable and even distasteful. I have embraced cultural beliefs about my worth. Yet we live in a physical world, where money is necessary. Going through The Joy of Money helped me to see and embrace my relationship with money. It helped me to realize ways I was pushing money away, ways I was making myself smaller and beliefs I held that really didn't make any sense.

Your Soul Story

I think in this culture we have a schism between our crazy materialism, that is really just trying to fill and emptiness inside of us, and our ideas about spirituality that hold money as the root of all evil. We are simultaneous holding these out of balance beliefs. The Joy of Money made me see that my having less of what I want in the world does not benefit anyone. By my living a joyful life that embraces money as energy, I can spread more joy and share my gifts with the world.

Through the process of working with Alicia, I was able to realize, it really isn't about the money at all. It is about issues of self-worth, gratitude, and my connection to the infinite divine energy that we all are. I learned the importance of having gratitude for all of the things big and small that money provides. I discovered all of the areas in my life where I am truly abundant. I learned to confront my deep-seated feelings of scarcity and worth.

I can honestly say that I feel more peaceful and more welcoming towards money. I would recommend this program to anyone who feels this discomfort and disconnect in their lives. I would recommend this program to anyone who suspects they may be holding themselves back or making themselves a little smaller than they could be.

The biggest change I have noticed is that my dreams and my sense of possibility have expanded greatly. I am cultivating ideas about my life and my place in the world that a few months ago did not seem possible. I am living with greater energy and enthusiasm for a life that is completely in line with my core values, only now it seems open and exciting.

I am deeply grateful to Alicia for her wisdom, her guidance, her humor and her deep caring."

*"My life with money until Spring 2012: There is never enough and never would be enough money. I was raised to believe that money is elusive and you have to work really, really hard for it. I secretly wished for a lot of it, but felt like a terrible person because that meant I was "greedy" and "selfish"... after all, *money is the root of all evil.**

Your Soul Story

This mindset put me in an awful bind because money was also the necessary ingredient to taking steps toward my dream, which meant my dream was light years away.

Spring 2012: I am an occupational therapist and at the time was working full time in the schools and doing registry work at the hospital on the side. My dream for several years now has been to start and run a company dedicated to generating conscious social change.

I could feel it was time to leave my job and move on to the next chapter, but still felt my business was light years away. From my perspective, there was no way I had enough money, resources, or knowledge to begin the entrepreneurs journey. I knew I needed to make some major shifts in my relationship with money if I was ever going to make this dream happen.

Enter Alicia Isaacs Howes...

Upon meeting Alicia, I knew immediately that she was the woman I needed to do this work with. She emanates love, kindness, compassion, and deep intuitive knowing. I signed up for The Joy of Money class and then did a Soul Story reading with her as well as reading a book she shared. Alicia has this magical way of creating a space where her clients feel safe, loved, and seen, all while challenging them to step out of their comfort zone to face their fears and change their sabotaging beliefs. She never lets me off the hook for the reality I'm creating, but always leaves me feeling empowered and convinced I have everything I need right in this moment!

During those 2 months of work with Alicia, I very clearly identified the ways my money story was no longer serving me and that it was really only part of a much more pervasive mindset of lack and scarcity impacting many areas of me and my life. Once I had awareness of how I was getting in my own way and put into place the tools that she taught to shift to a mindset of abundance, I was able to liberate myself from the chains of "not enough"! I left my job, decluttered my living and heart space, allowed time for not knowing my next step, practiced gratitude for everything I could and all of the sudden opportunities began to roll in! I was invited by two organizations to do consulting work, both requiring that I be part of a business and have a contract—I started my own company!! All of the sudden my

Your Soul Story

dream was upon me! Then my registry position became a wonderful source of income, in addition to several other per diem and contract opportunities allowing me the flexibility in scheduling to start my own business while still making enough to live a wonderful life!

My life has changed dramatically in the last 5 months and the most incredible shift is how I feel because of what I've learned. I discovered that the wealth I was seeking lives within me every day, and through those eyes...there is always more than enough! I have immeasurable gratitude for this woman who helped me to discover the abundance in and all around us!"
